INTRODUCTION

presents the aura of nature in your spaces with its collection of tiles, that seek design and texture elements from nature.

LARGE FORMAT

CUSTOMIZATION

EASY INSTALLATION

THE COLLECTION

ABSOLUTE COLOR IMMENSE THICKNESS

Every space is different and so is the vision for their embellishment. Now is the time to add versatility and vividness to your surfaces and imprint them with your style of creativity. Spaces tell stories of celebration, togetherness, joy and so more. With varied size options, you have the freedom to play with your ideas and make them alive in your desired space. The collection offering multiple size variants is a visual feast of colors and delightful designs to make your ambiance alluring and inviting.

Adaptable Size

The grand size of the collection is versatile on the contrary and allows one to explore decor ideas and execute them to perfection

Resourceful Application

The multifarious size offers versatile application possibilities for your spaces, furniture, and other tiling needs

Impeccable Lay

The variable sizes under the collection offers a seamless lay for your select spaces with less unflattering grout lines and facilitating a continuous floor and wall.

EDGE PROFILE

Expand your creativity as the sizes and designs of this collection ensure you the longevity of your surface and space for the longest time.

Manually Transporting Immoderate

1. Moving A Immoderate Tile Only for 1/4" Slabs

2. Raising a Immoderate Tile onto a Bench

✗ INCORRECT

✓ CORRECT

3. Handling Immoderate Tile for Wall

✗ INCORRECT

✓ CORRECT

Working With The Various Versions of Immoderate

1. Cutting with Diamond Discs

Our products can be cut using diamond discs fitted onto the hand-held electrical grinding machine. The speed of Disc rotation must be high (>10000 RPM) and should have a low feed rate (< 1 m/min). It may be required to cool the disc with water. Recommended discs are the thin types generally used for cutting porcelain stoneware. The surface should be kept on a FLAT base while cutting without any gap underneath.

2. Drilling

You can use cutting discs fitted to battery-operated screwdrivers or angle grinders, electrical drills as an alternative.

3. Internal Cut / L-Shaped Cut

To get internal and L-shaped corners & to reduce the risk of breakage, round off the vertex of the internal corner using bits with a radius of at least 5mm. Then cut with diamond discs, be cautious to stop moving the cutting tool forward. To drill and cut using diamond discs, follow the instructions provided above.

When using these tools:

- Cool the point being drilled with water
- Don't put too much pressure and bear in mind the resistance of the type of laminated stoneware you are working on
- If you are using tungsten bits, start drilling at a low speed
- If you are using drills or screwdrivers, do not select hammering mode

4. Edge Finishing
